## Our Programs

### Career Resource Center

Our Career Resource Center has helped prepare **6,000+** children and families for college and careers over the last two decades through in-person and virtual workshops, seminars and leadership development programs to enhance life skills, social connections, college preparation and career guidance. We leverage **140+** corporate and industry partnerships to facilitate career shadow days, networking opportunities, and more!

### Long-Term Youth Mentoring Program

Our Youth Mentoring Program is the cornerstone of long-term healing. This program encourages and supports mutually beneficial, long-standing relationships between adult role models and children ages 6-18 who have lost a military parent or sibling. Through a hybrid of community-based and digital e-mentoring, we enable children to develop healthy coping skills and have proven results in guiding and supporting socially strengthened young adults. The length of our matches, which well exceeds the national average for mentoring programs, sets this program apart and ensures enduring support for children impacted by traumatic loss.

## Family Engagement Events

Our Family Engagement programs enhance and sustain trust through common bonds and peer support. These programs help family members find strength in community. Family Engagement days, such as professional sports games, picnics and amusement park outings, offer children impacted by trauma and loss the opportunity to just be a kid and give families a chance to bond with others who have experienced similar tragedies or similar traumatic loss.

## Mental Health & Wellness

We support families with a range of life management and mental health and wellness programs, delivered in-person and virtually. Our renowned Creative Insight program, based on the distinguished Creativity in Business course at Stanford University, inspires and empowers participants to create a life they love. Our Heart to Heart healing retreats bring surviving military family members together to honor their loss and take steps toward healing.

## Project COMMON BOND

Project COMMON BOND has united **nearly 900** teenagers and young adults from **34** countries who have lost a loved one due to terrorism, mass violence or war. Participants learn about peacebuilding and conflict resolution while forming lifelong bonds with their peers and engaging in activities that emphasize the dignity of all. Chaperones and staff convene to discuss cross-cultural perspectives in long-term healing.
